

“I Always Wanted To...”

January 9, 2006

Northumberland County – On Saturday, June 24th, 2006, a unique event will be held in support of the Northumberland Hills Hospital's Dialysis program. Entitled “***I Always Wanted To...***” this event will offer participants the opportunity to take part in something they've always been curious about but never had the chance to do. For example, fly in a private plane over the hills of Northumberland, take an art lesson from a professional art instructor, learn how to prepare mouth watering appetizers with the help of a professional chef, take a bicycle tour of the area or build a stone wall.

For the past three years, Diana and John Joynt have organized this event in support of St. Mark's Heritage Foundation for the restoration of St. Mark's Church in Port Hope. The church has now been fully restored to its original condition and looks wonderful. So now that the St. Mark's project is complete, John and Diana are turning their attention to the community hospital. The funds raised through the 2006 “***I Always Wanted To....***” event will be used to purchase a dialysis machine for the Northumberland Hills Hospital.

What could be more unique – a day in the country, interesting events to participate in, lunch and a wonderful end-of-day reception at a beautiful home. All this for \$100 (and a portion of the ticket price is eligible for a tax receipt).

Should you wish more information, please feel free to contact the Northumberland Hills Hospital Foundation at (905) 377-7767.
