Picasso at the Lapin Agile

"Picasso at the Lapin Agile" is yet another award winning comedy by Steve Martin. Set in a Parisian bar in 1904, brings together two of the last century's most influential figures, namely Picasso and Einstein. These two men, both on the verge of greatness, argue about life, art, science and lust. Wild and crazy? You bet. Steve Martin even manages to sprinkle a little philosophy between the jokes that fly fast and furious.
