

MEDIA RELEASE

For Immediate Release: June 27, 2007

Northumberland County – It's official. Organizers of the first-ever ***Northumberland's Biggest Coffee Morning*** have confirmed that \$93,000 was raised during the June 19th event. The Harvey family were thrilled with the results, and the money raised in this tribute to June to be used for the new MRI service.

The idea for ***Northumberland's Biggest Coffee Morning***, a county-wide fundraising event, brewed in Alma Draper's mind for more than two years. When Mrs. Draper's close friend, June Harvey, passed away in November of 2006, she decided it was time to suggest this event in support of the Northumberland Hills Hospital. June was born on June 19th so a fitting date for an event that could be held indoors or in many gardens throughout Northumberland County.

With over 100 coffee parties held across the County of Northumberland, guests and their hosts enjoyed laughter and fellowship, while making donations for the Northumberland Hills Hospital.

Alma is quick to point out that results of this magnitude are not possible without an army of supporters including her organizing committee, community sponsors such as RBC Dominion Securities, Kraft, GE Plastics, Bright Ideas, Cobourg Internet and Tim Hortons, the hosts and of course – very generous attendees.

One gift of special mention was from a supporter of the coffee morning organized by RBC Dominion Securities. This guest contributed almost \$34,000 worth of shares towards the MRI purchase.
